Fantasy and imagination still have free reign in people's lives, more than any of us will admit. In a time when science is preeminent, irrational thinking can lay hold on the mind of man as much as in olden times. Folk medicine has expanded in recent years to include holistic medicine and other forms of alternative medicine, but little attention has been paid to magical medicine. Despite the benefits of medical science in an advanced culture, the magical medicine of Europe and America has clung to an unusually rich and original body of magical lore that lies at the base of its folk medical thought. Ethnomedicine in the inner cities of America can be better understood by practitioners who know something about folk medicine and, especially, if they know some of the basics of magical medicine. All forms of magic are linked to language. As a magic practitioner and a linguist, Patrick Dunn illuminates this fascinating relationship and offers breakthrough theories on how and why magic works. Drawing on linguistics and semiotics (the study

of symbols), Dunn illuminates the magical use of language, both theoretically and practically. He poses new theories on the mechanics of magic by analyzing the structure of ritual, written signs and sigils, primal language, incantations across cultures, Qabalah and gematria (Hebrew numerology), and the Enochian vocabulary. This revolutionary paradigm can help magicians understand how sigils and talismans work, compose Enochian spells, speak in tongues for magic, create mantras, work with gematria, use postmodern "defixios," and refine their practice in countless other ways. "'Magic, Power, Language, Symbol' is a unique tour de force that reinterprets the very nature of magic—placing it within the modern sciences of symbolism (semiotics) and language (linguistics). Within this paradigm, Dunn explains something that most other books miss: a logical and scientific understanding of how and why real magic actually works." —Donald Michael Kraig, author of "Modern Magick" The Cambridge Academic Content Dictionary defines the vocabulary students need to succeed in high school and beyond. All parents study their children's language carefully, if undeliberately, and every family has its precious memories of the unique verbal improvisations of childhood. For writers who continually struggle with and revel in the mysteries of language, the language of children holds a special attraction. Everyday Magic looks at the way Canadian writers have written through, as distinct from for or about, children, at the ways they have used 'child language' and children's models of perception to achieve various literary effects. It describes how texts might be shaped by child usage and speculates that adult artists often find themselves surprised and informed by the child language they seek to create. Ricou examines how the distinctive features of child language described by psycholinguists intersect with the written languages used by writers to suggest, not only a child language, but also the way a child sees and organizes an understanding of the world. The book's subtitle, putting the term 'child language' into the plural, points out that not one, but many written interpretations of the child's perspectives are possible. In order to emphasize this plurality and indicate that there are any number of child languages, the author has organized his study as a series of closely related essays. Each chapter considers the work of a Canadian author or authors, with the book as a whole moving from the more conventional writers to those who step outside the bounds of convention. Ricou proposes analogies with Wordsworth and Dylan Thomas, Proust and Dickens, but he finds his principal subject in the inherent interest of, for example, the Piagetian scheme that W.O. Mitchell seems to adopt in Who Has Seen the Wind; the obsessions with

similes in Ernest Buckler; the variations on the Bildungsroman in Margaret Laurence and Alice Munro; and the persistent experiments with presymbolic language in Bill Bissett. For these and other writers such as Clark Blaise, Emily Carr, Dennis Lee, Dorothy Livesay, P.K. Page, James Reaney, and Miriam Waddington, Ricou illuminates the particular literary languages appropriate to each author's subject. The result is a fascinating and unique approach to Canadian literature.
