web jul 5 2020 i have had this roku for two years and never had a problem now all of the sudden i get the home screen with all my channels the channels open but when i choose a video or movie no picture all the sound even the notifications are popping up in the corners eg ad 1 of 2 next etc i have unplugged it looked threateningly at it no web jan 6 2023 there may be a video output setting on the device that you must set properly before it will output to the tv there is something wrong with the tv which will require a technician to assess the tv and find a solution troubleshooting no picture issue note if you have any questions please call our contact center to get help with your inquiry web a menu command or toolbar button isn't enabled for the picture i want to work with you may need to select the picture or the item you selected is not in a format that you can edit in microsoft office picture manager editing pictures i don't like the way an edit turned out on the edit menu click the appropriate undo command web tv has sound but no picture troubleshooting guide youtube 0 00 2 29 tv has sound but no picture troubleshooting guide repair com 9 2k subscribers subscribe 9 2k 4m views 10 web if your player will not power on or you do not hear this article is for users who can power on their roku player but cannot see the picture on their tv if your player will not power on or you do not hear what to do if you cannot see the picture from your roku streaming player on your tv no picture on your tv web over time cables may become unplugged or changed when someone in the household switches to a gaming system or other device make sure the cable connecting your tv to the satellite receiver isn't unplugged tip hdmi is the most common cable type but there are other types depending on your setup reset your receiver web to fix the insignia black screen first replace your remote's batteries and make sure that it is fully functional next power cycle your tv and perform a hard reset on the tv and any external device the last step in the preparation would be to verify all of the wirings throughout your insignia tv to check for possible malfunctions web oct 12 2022 use the following guide to determine how to resolve a tv with sound but no picture power on tv 1 power on the tv using the button on the tv control panel do not use the remote control with the tv powered on press any key on the control panel of the television example menu vol or input web confirm that the tv is set to the proper input if you've completed the steps above and there's still no picture press exit exit exit 720 on your xfinity remote this should bring the picture back by setting the resolution to 720 you can then change to a different resolution by pressing the xfinity button on your remote and selecting the gear icon web aug 18 2022 if you're experiencing problems it's always a good idea to check the status of your roku software before moving on step 1 press the home button on your roku remote web feb 4 2022 select the issue you are experiencing for help troubleshooting the standby indicator blinks in red the standby indicator turns off no picture on your tv from a connected device models equipped with the presence sensor if the issue continues after completing the troubleshooting steps your tv may require repair go to product repair web 1 check to make sure your tv is powering on sometimes when you're not getting a picture it's because the tv isn't powering on to determine if this is a display issue or a power issue check the power light on your tv it will likely be in the center of left side of your tv if the light is coming on so is the tv web find tips for fixing issues like distorted or no sound picture not in sync with audio frozen picture or pixilation equipment issues find troubleshooting help for your dvr receivers and remote controls and how to return your equipment error messages get help troubleshooting error codes and messages if they display on screen web feb 16 2022 however since there's no picture your only option is to perform a hard reset see reset link above troubleshoot as an hdmi connection problem there are two things you should do try a different hdmi port if there are other available ports on the back of your tv attach the roku to one of them and then repeat step 3 web feb 2 2023 toshiba tv sound but no picture to fix your toshiba tv with sound but no picture unplug it hold the power button down for 15 seconds then plug your tv back in after waiting a further 2 minutes then check your t con board is getting the correct voltage and replace any failed backlights whether you have a standard toshiba tv or toshiba web jan 30 2023 most issues can be resolved by following easy troubleshooting steps first step perform a soft reset point the remote control at the illumination led or status led on the remote control press and hold the power button for at least 5 seconds or until a power off message appears notes the tv restarts automatically web may 4 2017 tv repair no picture no image screen flashlight test fix lcd led tv if you find you have a faulty circuit board t con board main board backlight inverter led driver board see below for the different types of boards that are available to fix your tv tv repair main circuit boards web step 1 verify the tv is powered on by pressing the power button on the tv's remote or the front panel of the set this may seem like an obvious step but many tvs are equipped with a standby light that will illuminate if the tv is turned off making it appear that the tv is on when it is not video of the day web jul 31 2022 if your monitor is getting power but no image appears the data cable may be the issue try using a different dvi hdmi or displayport cable with your monitor turn up the brightness and contrast if you can view your monitor's settings menu even though the screen is blank you likely need to turn up the brightness and contrast web if your tv or odyssey ark gaming screen is turned on and is producing sound but has a black screen the issue could be with your external device and not your tv for instance if your screen uses a one connect box which allows you to connect multiple external devices there are some troubleshooting steps you can take to solve the issue if it isn't web roku troubleshooting here's what to do if you
