This volume covers the new methodological advances in NMR spectroscopy that have been developed since the publication of the first edition. These include: 'indirect detection' methods, particularly proton-detected carbon-13 spectra, which have profoundly increased NMR sensitivities; 3- and even higher- dimensional NMR methods which have further increased spectral resolving and correlating power; powerful new computer programs which assist in all phases of data analysis and ultimately make possible rigorous interpretations of complex 2D and higher- dimensional NMR spectra using molecular mechanics and dynamics calculations; and field gradient technology which makes it possible to acquire 2D and higher-dimensional spectra of concentrated samples very rapidly, greatly reducing experiment times. This new edition retains the original format of the first edition with introductory chapters covering descriptions, basic theoretical treatments and experimental aspects of the methods. These are followed by applications chapters representing a broad sampling of important research areas and compound classes Originally published in 1932, this is a wonderfully detailed guide to ballroom dancing by the then reigning world champion dancer. A San Francisco Chronicle Best Book of 2015 An NBC Latino Selection for Ten Great Latino Books Published in 2015 Arriving in Buenos Aires in 1913, with only a suitcase and her father's cherished violin to her name, seventeen-year-old Leda is shocked to find that the husband she has travelled across an ocean to reach is dead. Unable to return home, alone,

and on the brink of destitution, she finds herself seduced by the tango, the dance that underscores every aspect of life in her new city. Knowing that she can never play in public as a woman, Leda disguises herself as a young man to join a troupe of musicians. In the illicit, scandalous world of brothels and cabarets, the line between Leda and her disguise begins to blur, and forbidden longings that she has long kept suppressed are realized for the first time. Powerfully sensual, *The Gods of Tango* is an erotically charged story of music, passion, and the quest for an authentic life against the odds. Daniels' *Orchestral Music* is the gold standard reference for conductors, music programmers, librarians, and any other music professional researching an orchestral program. Mercedes Liska focuses on one of the proposed alternatives to conventional tango, queer tango, which proposes to rethink one of the alleged icons of a national culture from a feminist conception and to imagine social transformation processes from bodily experiences. Specifically, this book analyzes the value of bodily experiences, the redefinition of the mind-body relationship, and the transformation in the dynamics of the dance from the heteronormative movements of tango. In doing so, Liska addresses the ways in which bodily techniques and gender theories are involved in the denaturing and corporeality decoding of tango and its historical senses as well as the connections between different tango dance practices spread throughout the world. *Presents a repertoire for Black against queen's pawn openings based on the dynamic Black Knights Tango*. Using illustrative games, this book gives a grounding on the key tactics and strategies behind this ambitious opening, while also highlighting the various tricks and traps that both sides have to watch out for. This is one of the most valuable dance manuals for the study of social dance practices during the ragtime era. The manual is enhanced by twenty six photographs of several important exhibition dance teams (for example, Irene and Vernon Castle; Maurice and Florence Walden). More than thirty steps are described including the one step, tango, Brazilian maxixe, and the hesitation waltz. Regarding the *Tango Dance Amalgamation*, it includes the original Argentine Tango and its Genre which Musically featured its Bandonean sound, the American Tango, Continental Tango, and the International Tango, among others. This book is the story of Tango. In the earliest years

of the 20th century, North American ballroom dancers favored the waltz or the polka. But then a new dance, the tango, broke onto the scene when Vernon and Irene Castle performed it in a Broadway musical. Rudolph Valentino, Arthur Murray, and Xavier Cugat popularized it in the 1920s and 1930s, and thousands of people crowded onto dance floors around the country to hear the music and dance the tango. This work chronicles the history of the tango in the United States, from its antecedents in Argentina, Paris and London to the present day. It covers the dancers, musicians, and composers, and the tango's influence on American music. With over three hundred recordings, multiple GRAMMY nominations, and numerous awards, José Serebrier is one of the busiest and most successful conductors around. If you are interested in Argentine tango you know that, as Veronica writes in one of her essays, "Tango, no matter your involvement in it, becomes a kind of a world separate from the rest, with its own particular joys, sorrows, difficulties, rules, goals and pleasures." And in this world there are both happiness and suffering. Whether you are a total beginner or an experienced dancer, in Veronica's essays you will discover a rich source of knowledge and inspiration as she tackles complex psychological, social and pedagogical issues in tango as a social dance and a performing art. Her essays offer a profound and well articulated reflection on the contemporary tango scene, supported by insights from psychology, neuroscience, biomechanics and bodymind techniques. What is the most effective way of learning tango? Why do we suffer so much while trying to learn it? How to stay happy and healthy while engaging intensively in this activity? Why does tango bring us so much joy and how to cultivate this joy no matter your age, looks and physical capacities? These are just some of the questions the author touches upon in this book that includes her first nineteen essays written between November 2013 and December 2014. Her essays, published as a blog on her Facebook page, are shared by tango people all over the world and translated into 14 languages so far by enthusiast volunteers.
