J. M. Coetzee and the Politics of Style Dec 24 2019 J. M. Coetzee's early novels confronted readers with a brute reality stripped of human relation and a prose repeatedly described as spare, stark, intense and lyrical. In this book, Jarad Zimler explores the emergence of a style forged in Coetzee's engagement with the complexities of South African culture and politics. Tracking the development of this style across Coetzee's first eight novels, from Dusklands to Disgrace, Zimler compares Coetzee's writing with that of South African authors such as Gordimer, Brink and La Guma,

whilst re-examining the nature of Coetzee's indebtedness to modernism and postmodernism. In each case, he follows the threads of Coetzee's own writings on stylistics and rhetoric in order to fix on those techniques of language and narrative used to activate a 'politics of style'. In so doing, Zimbler challenges long-held beliefs about Coetzee's oeuvre, and about the ways in which contemporary literatures of the world are to be read and understood.

The Pragmatics of Style (RLE Linguistics B: Grammar) Sep 20 2019 In the general area of style study or stylistics there is no shortage of ideas, definitions or published works. It is hoped, in the present volume, to contribute to the prosperity of the discipline mainly by clarifying and exemplifying how pragmatic considerations may be relevant to any study of style, in the conviction that pragmatylistics is more interesting and useful than stylistics on its own. The starting point must be a brief survey of the definitions and style and stylistics. The very form of the latter term suggests a scientific and orderly, rather than an intuitive or impressionistic, investigation of style. There are two separate levels of study: one, a general, methodical and scientific discipline; the other, an application of its methods or postulates to the analysis of the ' style ' of a specific utterance, text, speaker, writer, movement or period. It is clear that, in order to approach either, we must first attempt to understand style.

The Birth and Death of a Style Aug 24 2022 The heritage houses of the Dawoodi Bohra Community at Najampura in Sidhpur, Gujarat, have been a subject of many scholarly studies and documentations over the last several decades. It is clearly evident from the design of at least half-a-dozen structures that their builders were familiar with the contemporary European architectural trends at the beginning of the twentieth century. What is delightful about this development is that it occurred in a shy, remote place like Sidhpur, far away from any global exposure and with no history of being a hub of trade or commerce. What is to be commemorated are not these

' fountainhead ' European style buildings but their contribution in launching an absolutely unique vernacular language. The local craftsmen, to their supreme credit, took inspiration from these models but never really imitated them.

Senses of Style May 29 2020 In an age of interpretation, style eludes criticism. Yet it does so much tacit work: telling time, telling us apart, telling us who we are. What does style have to do with form, history, meaning, our moment 's favored categories? What do we miss when we look right through it? Senses of Style essays an answer. An experiment in criticism, crossing four hundred years and composed of nearly four hundred brief, aphoristic remarks, it is a book of theory steeped in examples, drawn from the works and lives of two men: Sir Thomas Wyatt, poet and diplomat in the court of Henry VIII, and his admirer Frank O ' Hara, the midcentury American poet, curator, and boulevardier. Starting with puzzle of why Wyatt ' s work spoke so powerfully to O ' Hara across the centuries, Jeff Dolven ultimately explains what we talk about when we talk about style, whether in the sixteenth century, the twentieth, or the twenty-first.

Subculture Jun 29 2020 First Published in 2002. It is easy to see that we are living in a time of rapid and radical social change. It is much less easy to grasp the fact that such change will inevitably affect the nature of those disciplines that both reflect our society and help to shape it. Yet this is nowhere more apparent than in the central field of what may, in general terms, be called literary studies. 'New Accents' is intended as a positive response to the initiative offered by such a situation. Each volume in the series will seek to encourage rather than resist the process of change. To stretch rather than reinforce the boundaries that currently define literature and its academic study.

Empire of Style Mar 07 2021 Tang dynasty (618 – 907) China hummed with cosmopolitan trends. Its capital at Chang'an was the most populous city in the world and was connected via the Silk Road with the critical markets and thriving cultures of Central Asia and the Middle East. In *Empire of Style*, BuYun Chen reveals a vibrant fashion system that emerged through the efforts of Tang artisans, wearers, and critics of clothing. Across the empire, elite men and women subverted regulations on dress to acquire majestic silks and au courant designs, as shifts in economic and social structures gave rise to what we now recognize as precursors of a modern fashion system: a new consciousness of time, a game of imitation and emulation, and a shift in modes of production. This first book on fashion in premodern China is informed by archaeological sources—paintings, figurines, and silk artifacts—and textual records such as dynastic annals, poetry, tax documents, economic treatises, and sumptuary

laws. Tang fashion is shown to have flourished in response to a confluence of social, economic, and political changes that brought innovative weavers and chic court elites to the forefront of history.

With such other classic essays as “ Free Silver and the Mind of 'Coin' Harvey ” and “ What Happened to the Antitrust Movement?, ” *The Paranoid Style in American Politics* remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States.

The ABC of Style invites you to explore the many different architectural and decorative interior styles from their ancient origins to the 1940s. Take a journey through history to see how the French aristocracy styled their palaces and castles to the simple designs of the Dominican monastic churches during the middle ages.
